Note: 10 – scored system is adopted in the university: from 5 to 6 scores are satisfactory marks, From 7 to 8 scores are good; from 9 to 10 scores are excellent.

- The University's educational activity aims at preparation of such new qualified specialists which will develop the 21st century medicine by integration. This process doesn't have its precedent in the region.
- Parallely to the modern medicine the traditional medicine which comes through the centuries is on scientific level in the University. Thus, the Fytotherapy, the Acupuncture, the Homoeopathy, the Iridology and so on which aren't studied in other medical HEIs (Higher educational institution) in the region, are included in study-plan and programs.
